## WORK EXPERIENCE

**Brand Machine Group Ltd** Oct 2023 – Jan 2025  
Data Analyst *Bengaluru, India*

- Increased email marketing conversion rate from 0.3% to 1.9% by designing Power BI conversion-funnel dashboards with forward-looking performance indicators
- Improved sales conversion by 25.7% across multiple brands via scalable Power BI dashboards analyzing ROAS and customer behavior trends, driving a 1.5% lift in overall revenue
- Drove an 8% seasonal revenue increase via Apriori-based Market Basket Analysis to identify product associations for targeted email campaigns
- Conducted daily demand analysis during warehouse migration, maintaining consistent fulfillment for e-commerce and B2B customers
- Delivered monthly insights dashboards for multiple brand, providing actionable data to leadership for informed decision-making

**Koch Business Solutions** Mar 2023 – Sep 2023  
Data Analytics Engineer *Bengaluru, India*

- Reduced data preparation time by 40% by re-engineering ETL workflows in Tableau Prep Builder for the global HR Analytics & Reporting team, improving downstream data reliability
- Deployed a Tableau experiment dashboard across 10 global facilities, driving a 30% increase in conversion rates and an 8% reduction in workplace accidents, while cleaning 2M+ HR records ahead of a global data transformation
- Followed Agile methodologies, providing team knowledge transfer and maintaining development documentation

## PROJECTS

---

### Credit Card Fraud Detection Model

Nov 2025

*Independent*

*Boston, MA*

- Built a Random Forest-based fraud detection model in Python (feature engineering, Matplotlib/Seaborn) and a customer credit-risk segmentation model using scikit-learn and statsmodels, applying statistical tests (Chi-squared, ANOVA) to identify risk tiers

### Credit Risk Segmentation Model

Sep 2025

- Developed customer credit risk segments using XGBoost classification and statistical tests (Chi-squared, ANOVA) to identify risk tiers, with full preprocessing, cross-validation, and performance evaluation using scikit-learn and statsmodels

## LEADERSHIP & EXTRACURRICULAR

---

### Northeastern University Energy Systems Society (NUESS)

May 2026 – Present

VP of Finance

*Boston, MA*

- Built and maintaining an Excel-based budget tracking workbook (pivot tables, VLOOKUP) to monitor university club expenses across events, sponsorships, and member initiatives, reporting variances to the executive board
- Reconcile actual expenses against approved budgets on a recurring basis and document standardized expense reporting procedures (SOPs), flagging discrepancies and maintaining fiscal accountability
- Support the annual budget proposal and allocation process, advising club leads on request procedures and available funds

### TEDx CMRIT

2022 – 2023

Curator Lead

*Bengaluru, India*

- Led end-to-end event curation and managed event budgets/sponsorship funds, coordinating speaker selection, vendor negotiations, and logistics across cross-functional teams

### CMRIT College Placement Cell

2022 – 2023

Student Placement Coordinator

*Bengaluru, India*

- Coordinated recruitment drives between corporate recruiters, faculty, and students, and maintained placement data tracking to improve hiring-outcome visibility for university administration
